PROFESSIONAL EXPERIENCE

SENIOR PROGRAM MANAGER

Effective Health Systems | March 2016 - Present
Web-based Medical Claims Application

- Work with developers, quality assurance, and product management team to lead product and process solutions forward for long term business objectives
- Work directly with clients to understand their goals and success criteria to build requirements providing high quality functional specifications for product enhancements.
- Identify & evaluate customer and feedback trends and innovations to determine value addition and fit for purpose on how changes will apply to the business functions/users.
- Create client facing training and demo materials including live demos, release notes, videos, PDFs, PowerPoint presentations, building out knowledgebase website
- UI/UX design for company platforms and marketing materials, including email marketing, style guides, high fidelity mock-ups, clickable prototypes, enhancing usability and efficiency for the end user.
- Lead effort to expand a client of our Pre-Auth platform from a single state to nationwide.
- Lead client implementation of customized version of our Pre-Auth platform specifically for Utilization Review.

TECHNICAL PROJECT MANAGER

We Are Mammoth | September 2015 - March 2016
Web Development Studio

- Managed technical project and account management duties in pre-production, production implementation, and post- production life cycle while maintaining and building client relationships.
- Responsible for requirements gathering, determining cost and time estimates, creating project schedules, writing statements of work, and client billing reviews.
- Managed a team of front and back end developers from project kick off through launch, as well as post launch maintenance.
- Managed client scope creep, budgets, communication on all project activities, and tested each deliverable prior to client testing and go-live.

PROFESSIONAL EXPERIENCE (CONTINUED)

RELEASE MANAGEMENT, SUPERVISOR

HealtheSystems | March 2015– September 2015
Web-based Medical Claims Application

- Supervised release management team in order to drive and communicate software release plans and minimize the impact of release changes.
- Train and mentor the release management team, as well as assign work to the release schedule based on resource capacity.
- Responsible for the release management process and related process documentation, training, reinforcement, and continuous improvement. Developed and documented change delivery process providing clarity for IT resulting in faster delivery.
- Supervised team of release managers including performance reviews, mentoring, and developing career paths.
- Performed release trend analysis and reporting (scheduled and adhoc).
- Implemented Kanban boards to help deliver changes bringing higher visibility to business stakeholders.

SENIOR RELEASE MANAGER

HealtheSystems | July 2012 – March 2015
Web-based Medical Claims Application

- Executed and monitored monthly software releases coordinating the efforts of IT resources in order to deliver releases according to plan.
- Ensure requirements are fully vetted and understood by all team members and stakeholders.
- Ensured resources were assigned for the correct time frames, dependencies were identified, and estimated and actual work was updated on a regular and timely basis to facilitate accurate capacity reporting.
- Identified risks and worked with IT resources to identify options for corrective action.
- Tracked and reported on all changes to release scope/schedule/resources.
- Partner with Consultative Services and IT to define and manage release scope according to priority and available capacity. Own and maintain the Release Management Process and related process documentation.
- Developed release reports for executive management providing visibility on status of in-flight work.

QC RELEASE COORDINATOR

SCC SoftComputer | December 2007 – July 2012
Lab Information Software

- Coordinated testing activities and documentation ensuring product design history files were prepared, complete, verified prior to submission and software release.
- Acted as the central coordination point for releases.
- Supported testing process infrastructure; including communication forums with internal customers and contracted vendors, assigning and managing tasks for testing.
- Project lead and designer of dashboard for reporting testing deliverables companywide reducing time spent providing status updates by 30%.
