PROFESSIONAL EXPERIENCE (CONTINUED)

RELEASE MANAGEMENT, SUPERVISOR

HealtheSystems | March 2015 - September 2015

Web-based Medical Claims Application

- Supervised release management team in order to drive and communicate software release plans, minimized the impact of release changes, as well as assign work to the release schedule based on resource capacity.
- Responsible for the release management process and related process documentation, training, reinforcement, and continuous improvement. Developed and documented change delivery process providing clarity for IT resulting in faster delivery.
- Performed release trend analysis and reporting (scheduled and adhoc).
- Implemented Kanban boards to help deliver changes bringing higher visibility to business stakeholders.

SENIOR RELEASE MANAGER

HealtheSystems | July 2012 - March 2015

Web-based Medical Claims Application

- Executed and monitored monthly software releases coordinating the efforts of IT resources in order to deliver releases according to plan.
- Ensured resources were assigned for the correct time frames, dependencies were identified, and estimated and actual work was updated on a regular and timely basis to facilitate accurate capacity reporting.
- Identified risks and worked with IT resources to identify options for corrective action.
- Tracked and reported on all changes to release scope/schedule/resources.
- Developed release reports for executive management providing visibility on status of in-flight work.

QC RELEASE COORDINATOR

SCC SoftComputer | December 2007 - July 2012

Laboratory Information Software

- Coordinated testing activities and documentation ensuring product design history files were prepared, complete, verified prior to submission and software release.
- Act as the central coordination point for releases.
- Support testing process infrastructure; including communication forums with internal customers and contracted vendors, assigning and managing tasks for testing.
- Project lead and designer of dashboard for reporting testing deliverables company wide reducing time spent providing status updates by 30%.
