PROFESSIONAL EXPERIENCE (CONTINUED)

RELEASE MANAGEMENT, SUPERVISOR

HeatheSystems | March 2015– September 2015
Web-based Medical Claims Application

- Supervised release management team in order to drive and communicate software release plans and minimize the impact of release changes.
- Train and mentor the release management team, as well as assign work to the release schedule based on resource capacity.
- Responsible for the release management process and related process documentation, training, reinforcement, and continuous improvement. Developed and documented change delivery process providing clarity for IT resulting in faster delivery.
- Supervised team of release managers including performance reviews, mentoring, and developing career paths.
- Performed release trend analysis and reporting (scheduled and ad hoc).
- Implemented Kanban boards to help deliver changes bringing higher visibility to business stakeholders.

SENIOR RELEASE MANAGER

HeatheSystems | July 2012 – March 2015
Web-based Medical Claims Application

- Executed and monitored monthly software releases coordinating the efforts of IT resources in order to deliver releases according to plan.
- Ensured resources were assigned for the correct time frames, dependencies were identified, and estimated and actual work was updated on a regular and timely basis to facilitate accurate capacity reporting.
- Identified risks and worked with IT resources to identify options for corrective action.
- Tracked and reported on all changes to release scope/schedule/resources.
- Developed release reports for executive management providing visibility on status of in-flight work.

QC RELEASE COORDINATOR

SCC SoftComputer | December 2007 – July 2012
Lab Information Software

- Coordinated testing activities and documentation ensuring product design history files were prepared, complete, verified prior to submission and software release.
- Acted as the central coordination point for releases.
- Supported testing process infrastructure, including communication forums with internal customers and contracted vendors, assigning and managing tasks for testing.
- Project lead and designer of dashboard for reporting testing deliverables companywide reducing time spent providing status updates by 30%.
